120+

Institutions have successfully implemented
INVESTPRO™

USER-TAILORED FEATURES

INVESTPRO™, an all-in-one application that benefits all users across the investment team.

DIRECTOR

Monitor your investment portfolio quickly, anytime, and anywhere with INVESTPRO™:

- Real-time performance monitoring
- ROI tracking
- Automated compliance checking
- Improved governance

INVESTMENT MANAGER

Focus on what matters – managing portfolio more efficiently and effectively. INVESTPRO™ comes with:

- Strategic and tactical asset allocation simulation
- Attribution analyses
- Audit trail – to ensure that a prudent investment process is achieved within the platform

RISK MANAGER

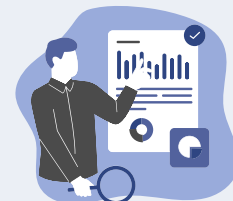

Assess, identify, and mitigate any potential investment risks more robustly with the built-in risk management tool from INVESTPRO™:

- Portfolio risk mapping with probability-impact matrix
- Advanced compliance rule-building and monitoring

INVESTMENT ANALYST

Increase accuracy with fewer spreadsheets using INVESTPRO™:

- Automated portfolio and regulatory reports
- Seamless implementation: from instrument analysis, investment recommendations with customizable approval, and extending to transaction recording—everything is handled within one application

PT Infovesta Utama (INFOVESTA) is Indonesia's leading technology company that prioritizes investors' interest, focusing on Capital Market Investment. Founded in 2014, INFOVESTA has continually pioneered the integration of data and technology to create innovative solutions within the investment industry.

Putting investors' needs at the forefront focus of the company, Infovesta strives to build innovative solutions by combining technology intelligence and information. We are continuously breaking through and unlocking possibilities in new ways that can assist investors in making better-informed decisions with confidence.

Our experiences for more than ten years have become our strong base for bringing changes in the investment industry. By sticking to the principle of always putting forward the interests of investors, we are making new changes by bringing a touch of technology to create new opportunities for investing. We have been trusted to handle some of the most reputable companies in the investment industry, such as investment management firms, securities companies, insurance companies, banks, and pension funds.
